ESTUARY EXPLORER TOUR

The Fraser River estuary/delta is a complex and fascinating place. Each season offers a multitude of different sights and sounds in the secluded channels and sloughs near the mouth of the Fraser.

Learn about the natural history and gain a better understanding of the ecological importance of the estuary as you cruise the waterways with our qualified river pilots and guides on this two hour tour. In addition, the economic and cultural legacy of this area will be explored, enhancing your understanding of this mighty working river.

This is a world class viewing area for migratory birds and waterfowl. Binoculars and cameras will come in handy as you search for birds, marine mammals such as harbour seals and sea lions as well as beavers and muskrats.

KAT operates two very unique vessels from its waterfront facility at the Elliott Street Wharf in Ladner Harbour. We are able to tailor our adventures for small and large groups, for the very young as well as the "young at heart".

The MV *Beta Star* (new for 2006) is our Transport Canada approved 40 passenger catamaran. With two levels of table and chair seating, a galley and snack bar, and onboard commentary this is an ideal platform to set forth in comfort and safety at any time of the year. An excellent floating classroom, we can work with teachers and students to help make their science and social studies curriculum come alive! The *Beta Star* is also available for any youth/senior group outings, as well as special events and corporate functions.

The *Kat Kruiser* is a former Canadian Coast Guard rescue craft. With its water-jet drive and turbo diesel engine we can take this open boat almost anywhere we can take our kayaks. Well, almost anywhere...

Adventurers will be provided with all safety equipment as required by Canadian Coast Guard regulations. Dress for the weather -- in the summer months hats, sunscreen and sunglasses are recommended.

Rates:

Adults	\$33.00
Seniors & Students (13-18 years)	\$29.00
Children (6-12)	\$18.00

7% GST to be added to all fares
